CONTENTS

Radial distribution function of natural fibres and synthetic water soluble polymers using X-ray diffraction G Thejas Urs, M B Nanda Prakash, H T Ananda & R Somashekar	9
Morphological and thermal properties of optimized electrospun cellulose acetate nanofibres during deacetylation in different pH values Payam Zahedi, Ayda Rafie & Edyta Wojczak	13
Prediction of polyester/cotton blended rotor-spun yarns hairiness based on the machine parameters Vahid Ghorbani, Morteza Vadood & Majid Safar Johari	19
Spinnability of cotton/milkweed blends on ring, compact and rotor spinning systems T Karthik & R Murugan	26
Prediction of fabric hand characteristics using extraction principle Apurba Das, Abhijit Majumdar & Sukumar Roy	33
Preparation and properties of a washable flame-retardant coated fabric Qiang-Lin Li, Fang-Qian Huang, Xue-Jun Jiang, De Wen, Xi-Ning Feng & Kai Wu	40
Effect of linear density of feed yarn filaments and air-jet texturing process variables on compressional properties of woven fabrics R KBaldua, R S Rengasamy & V K Kothari	47
<i>Ex-situ</i> and <i>in-situ</i> post-photosynthesis of silver nanoparticles on polyamide fabric using daylight irradiation Vahid Babaahmadi, Majid Montazer & Tayebbeh Toliyat	55
Filtration properties of staple fibre thermo-bonded nonwoven fabrics D Kalaivani, S Arun Karthick & N Gobi	62
Predicting hydrophobicity of silica sol-gel coated dyed cotton fabric by artificial neural network and regression Samander Ali Malik, Sidra Saleemi & Naveed Mengal	67
Optimization of sizing parameters with taguchi method Emel Ceyhun Sabir & Çiğdem Sarpkaya	73

Laser eco-printing technology for silk fabric patterns Jinxiang Chen, Chuang Meng, Juan Xie, Le Pan, Dong Zhou & JunNan Chen	78
Dope dyeing of polyacrylonitrile filaments with Ratanjot Roli Purwar, Priyadarshan Sahoo, Mehak Jain, Urvashi Bothra, Priya Yadav, Jigyasu Juneja & Chandra Mohan Srivastava	84
Short Communications	
Stabilised blending delay time in blowroom multimixer Abhijit Majumdar	89
Impact of high temperature and pressure on sericin scouring of muga silk cocoons Manasee Choudhury & Dipali Devi	93
Pilling evaluation of patterned fabrics based on a gradient field method Lenka Techniková, Maroš Tunák & Jiří Janáček	97
Colour effect on fibre diameter measurement with OFDA 2000 Q Li, P R Brady, C J Hurren & X G Wang	102
Book Review	
Handbook of fluorescent dyes and probes by R W Sabnis; reviewed by Deepti Gupta	107
